

Paper Core™ Wick

Paper core™ wick remains one of the most popular wick options in the marketplace. Constructed of 100% natural fibers, the paper core wick features a cotton outer braid surrounding an inner paper filament. This wick type's paper core enables the wick to remain rigid in the molten wax pool in various candle types, including in votives, pillars, and containers. Paper core wick's burn characteristics make them ideal for slower-burning waxes, like soy, requiring additional heat for optimal combustion.

Features:

- ❖ Constructed from 100% natural fibers.
- ❖ Designed for use in votives, pillars, and containers.
- ❖ Engineered to increase rigidity in the molten wax pool.

Wick Designation	Yield (yds/lb)	ROC (oz/hr)	Flame Height (inches)	Pool Diameter (inches)
10-26 P	519	0.11	0.81	1.54
10-38 P	546	0.12	0.88	1.57
28-24 P	505	0.12	0.87	1.56
28-24 SP P	550	0.1	0.75	1.51
30-24 P	535	0.12	0.89	1.57
32-24 P	537	0.12	0.92	1.58
34-24 P	536	0.13	0.94	1.59
34-40 P	443	0.15	1.09	1.65
34-40 SP P	380	0.16	1.19	1.69
36-24 P	529	0.13	0.96	1.6
36-24-24 P	376	0.16	1.2	1.7
36-28 P	557	0.14	1.02	1.62
36-28 SP P	468	0.14	1.05	1.64
44-20-18 P	378	0.18	1.3	1.74
44-24-18 P	339	0.19	1.44	1.78
44-28-18 P	285	0.21	1.57	1.83

Wicks Unlimited is not responsible for any damage to property or injury to persons caused by the use of the wicks described in this catalog. For optimal burn performance, customers should conduct exhaustive burn tests in their own homes using samples for their future candle referrals. The manufacturer's name, logo and other marks are the property of the manufacturer.

Wick Designation	Yield (yds/lb)	ROC (oz/hr)	Flame Height (inches)	Pool Diameter (inches)
44-32-18 P	257	0.22	1.68	1.87
44-36-18 P	226	0.22	1.71	1.88

Disclaimer

The rate charts provided in this document are meant to serve only as a guide for our customers to assist them in wick selection. Many variables exist in candle wax types, additives and formulations for individual candle systems. Final wick selection should always be confirmed through the customer's own testing process to determine if a particular wick is the correct choice for a particular candle system. Wicks Unlimited is not responsible for selections made by the customer using any of the reference material contained in this catalog. For optimal burn performance in specific candle systems, we strongly recommend that customers conduct exhaustive burn tests in their own burn lab and consider retaining samples for their future internal reference. The importance of candle testing and data validation cannot be overstated.
