

P Series

This self-trimming wick is ideal for solid-colored and container candles since it is treated with advanced chemicals to increase its lifespan. The P-Series wick uses pure-ring spun cotton yarn to form a paper core wick with an innovative tension thread wrapped around the wick's center to enhance combustion. Also, the design of the P-Series wick reduces afterglow, soot, and even mushrooming.

Features:

- ❖ Constructed pure ring-spun cotton yarn.
- ❖ innovative tension thread wrapped around the wick's center enhances combustion
- ❖ Designed for use in solid colored and container candles.

Wick Designation	Yield (yds/lb)	ROC (oz/hr)	Flame Height (inches)	Pool Diameter (inches)
P 120/2-26	1033	0.09	0.6	1.8
P 140/2-30	727	0.13	0.7	1.9
P 160/2-30	639	0.15	0.7	1.9
P 180/2-35	556	0.17	0.9	1.9
P 180/4-35	495	0.21	1	2
P 180/6-35	439	0.22	1.2	2
P 200/6-35	360	0.23	1.3	2
P 212/6-40	288	0.27	1.4	2.1
P 214/4-40	280	0.27	1.4	2.2
P 218/2-35	254	0.28	1.5	2.3

Disclaimer

The rate charts provided in this document are meant to serve only as a guide for our customers to assist them in wick selection. Many variables exist in candle wax types, additives and formulations for individual candle systems. Final wick selection should always be confirmed through the customer's own testing process to determine if a particular wick is the correct choice for a particular candle system. Wicks Unlimited is not responsible for selections made by the customer using any of the reference material contained in this catalog. For optimal burn performance in specific candle systems, we strongly recommend that customers conduct exhaustive burn tests in their own burn lab and consider retaining samples for their future internal reference. The importance of candle testing and data validation cannot be overstated.
