

PK WICK

PK Wick by Wedo is often used in scented and unscented, solid-colored, votive, pillar, and container candles since it improves the burning of very rigid candles. This wick features a high-quality washed cotton braid with a paper core. Due to this wick's versatility, it is suitable for most wax and candle types.

Features:

- ❖ Constructed from a paper core, with a high-quality washed cotton braid.
- ❖ Designed to be used in scented and unscented, solid-colored, votive, pillar, and container candles.
- ❖ Engineered to improve the burning of paraffin-based candles.

Wick Designation	Yield (yds/lb)	ROC (oz/hr)	Flame Height (inches)	Pool Diameter (inches)
PK - 0	771	0.09	0.4	1.1
PK -1	595	0.1	0.5	1.2
PK -2	600	0.11	0.6	1.3
PK -3	533	0.12	0.7	1.4
PK -4	422	0.13	0.8	1.5
PK -5	427	0.14	0.9	1.6
PK -6	556	0.14	0.9	1.6
PK -7	372	0.15	1	1.7
PK -8	458	0.15	1	1.7
PK -9	317	0.16	1.1	1.8
PK -11	270	0.17	1.2	1.9
PK -13	226	0.18	1.3	2
PK -15	206	0.19	1.4	2.1

Disclaimer

The rate charts provided in this document are meant to serve only as a guide for our customers to assist them in wick selection. Many variables exist in candle wax types, additives and formulations for individual candle systems. Final wick selection should always be confirmed through the customer's own testing process to determine if a particular wick is the correct choice for a particular candle system. Wicks Unlimited is not responsible for selections made by the customer using any of the reference material contained in this catalog. For optimal burn performance in specific candle systems, we strongly recommend that customers conduct exhaustive burn tests in their own burn lab and consider retaining samples for their future internal reference. The importance of candle testing and data validation cannot be overstated.
