

**Wicks Unlimited your Global Leader**  
For All of Your Candle Combustion Needs

## 10.0 mm Safety Neck Sustainers

Wicks Unlimited manufactures and supplies 10.0 mm safety neck candle sustainers with increased neck height. This unique feature enables candle manufacturers to create tabbed wicks from waxed wick on reels. Since safety neck sustainers feature an extended neck height, the candle's flame is snuffed out earlier during the combustion process. The extended neck height reduces the chance of the candle's container getting hot, especially near its end of life.

The overall neck height for this safety neck sustainer is 10.0 mm and is available with base diameter(s) of either 15.0 mm or 20.0 mm. Candle manufacturers can select two crimping options for production runs: puncture and non-puncture. Wicks Unlimited's best-selling metal candle sustainers with puncture crimping enable manufacturers to develop candles that consume all the fuel (wax) at the end of life. Alternatively, sustainers with non-puncture

crimping will extinguish the flame as soon as it reaches the top of the neck and leaves unconsumed wax at the end of life. All of Wicks Unlimited's safety neck candle sustainers are manufactured from the highest quality .010" (0.254 mm) thick tin-coated steel that helps inhibit corrosion caused by fragrance and essential oils and are preferred by candle manufacturers worldwide.

### Features:

- U.S.-based manufacturer & supplier of metal candle sustainers.
- Select from five (5) 10.0 mm standard neck metal sustainers with either a 15.0 mm or 20.0 mm base diameter to create tabbed wicks from waxed wick on reels.
- 10.0 mm safety neck sustainers are available with either puncture or non-puncture crimping.
- Wicks Unlimited's best-selling metal sustainers with puncture crimping enable manufacturers to develop candles that consume all the fuel (wax) at the end of life.
- Sustainers with non-puncture crimping will extinguish the flame as soon as it reaches the top of the neck and leaves unconsumed fuel (wax) at the end of life.
- Patented crimping tool exerts more pressure on the wick core without shearing the fibers, ensuring a solid crimp every time and preventing the wick from pulling out.
- The crimp will meet or exceed all standard operating requirements for crimp hold.
- Manufactured from the highest quality .010" (0.254 mm) thick tin-coated steel to inhibit corrosion caused by fragrance and essential oils.
- Wicks Unlimited's sustainers are accredited by the Quality Association for Candles and adhere to strict quality standards thanks to ISO: 9001:2015 certified quality management systems and state-of-the-art equipment.

#### 10.0 mm Sustainers

Sustainer	Base Diameter	Overall Height	Hole Diameter
A3798	15.0 mm .590"	10.0 mm .394"	2.4 mm .094"
A3777	15.0 mm .590"	10.0 mm .394"	3.0 mm .118"
A3961	20.0 mm .788"	10.0 mm .394"	2.1 mm .083"
A3800	20.0 mm .788"	10.0 mm .394"	2.4 mm .094"
A3799	20.0 mm .788"	10.0 mm .394"	3.0 mm .118"
