

Wicks Unlimited your Global Leader
For All of Your Candle Combustion Needs

Waxed Wick on Reels

Wicks Unlimited's pre-waxed wick on reels is the perfect wick solution for "in-line" cut, tab, and glue candle manufacturing machinery. Our proprietary waxing process saturates the wick to its core by gently forcing the air out of the raw wick, enabling it to burn in a more uniform, consistent, and predictable manner. Wicks Unlimited's waxing process also makes the wick stronger and easier to work with during production. With (up to) 3,000 yards (2,743 meters) of waxed wick per reel and over 400 different candle wicks to choose from, Wicks Unlimited's pre-waxed wick on reels feature minimal ends ensuring your production runs smoothly and efficiently every time.

Features:

- 3,000 yards (2,743 meters) of waxed wick per reel.
- Wicks Unlimited stocks Atkins & Pearce, Wedo, and São Vitor wicks.
- Proprietary waxing ensures each wick is fully de-gassed for optimal wax saturation.
- Cored, flat, and squared wick available.
- Recyclable high-strength cardboard reel.
- Perfect product for "in-line" cut, tab, and glue candle manufacturing machinery.
- Minimal ends ensure candle production runs smoothly and efficiently.
- Available for our make & hold program for qualified customers.
